

Chamblee High School  
Principal Advisory Council Summary  
November 9, 2021, 7:15 – 8:00am

*Key Actions:*

1. The CHS PAC reviewed results from a staff/teacher survey regarding a schedule change at CHS from 7 periods/day to 4x4, A/B or modified A/B schedule. Principal Barnes is awaiting additional department level feedback and student input. Scheduling for next year is due to the district by November 30, making it a narrow window to collect feedback and come to a consensus.
2. The PAC CMS sub-committee met to review the current CMP proposals. While moving the magnet program out of CHS is not currently a proposal, the PAC wants to ensure that there is a single voice/message provided by the CHS community. The overriding message is that the magnet program is not moveable. The magnet program is what the CHS staff has created. To move it would be shutting down the current program and restarting/rebuilding it elsewhere, not simply moving the program.
3. K. Feaster will continue to reach out to the Ashford Park Elem. School PAC to determine their views/plan of action on the current CMP.

*Informational Items:*

1. The current Counseling office secretary has resigned, and the position will be open as of Monday, November 15. It is valuable to have a person who is fluent in Spanish in this position.
2. Title I Parent Liaison is in place. This individual has both experience as a Parent Liaison and speaks Spanish.
3. Continuous School Improvement Plan (CSIP) for 2021 – 2022 will be posted on the CHS PAC webpage.

**Next Meeting Date/Time:** The next meeting of the Council is planned for Tuesday, December 14, at 7:15 am, via Zoom.
